# A Message from our CEO

Welcome to the new RoyalJet experience. Our mission is to deliver personalized delight to each and every one of our guests, throughout their whole journey. We are not just here to transfer you from place to place; we are committed to exceeding our guests' expectations by tailoring every step of the way to make your experience meet their wants and needs.

RoyalJet owns and operates a state-of-the-art fleet composed of eleven Boeing Business Jets and three Bombardier Global 5000/6000 aircraft. A range of aviation-related services is also available to meet any requirements needed for all journeys.

RoyalJet is an award-winning premier private aviation company in the process of becoming the global reference in the industry while projecting the values and identity of Abu Dhabi and the UAE.

We look forward to welcoming you on board,

**Mohammed Hussain Ahmed**  
CEO, RoyalJet

# About RoyalJet

The RoyalJet LLC is an Abu Dhabi owned and operated premium private aviation group of companies chaired by His Highness Sheikh Mohammed Bin Hamad Bin Tahnoon Al Nahyan.

With its headquarters in Abu Dhabi in the United Arab Emirates, RoyalJet operates from its Fixed Based Operations (FBO) / VIP Terminal at Abu Dhabi International Airport and the company and its employees hold multiple certifications and licenses issued by the UAE General Civil Aviation Authority and the Bermuda, Guernsey and San Marino Aviation Authorities.

The Group, through its Abu Dhabi and Bermuda entities, owns and/or operates eleven Boeing Business Jets and three Bombardier Global 5000/6000 aircraft, offering aircraft management, aircraft charter, aircraft leasing, medical evacuation flights, aircraft brokerage, flight support services, FBO services, aircraft maintenance, repair and CAMO services, aircraft acquisition and disposal services and VIP aviation consulting.

The RoyalJet LLC is a founding member of the Middle East Business Aviation Association (MEBAA), a member of various other industry associations, and its flight and ground operations are certified by the International Business Aviation Council (IBAC) and under the Wyvern Wingman program. Its FBO is also a member of the industry leading Air Elite Network.

RoyalJet is also a proud multiple winner of the "World's Leading Private Jet Charter" category at the annual World Travel Awards and its FBO has won multiple awards for its facilities and services.

## Our Fleet

The RoyalJet award winning charter fleet features flexibility and choice unparalleled in premium private aviation. We operate by far the largest fleet in the world of Boeing Business Jets – the leading VIP airliner on the market – and with ten spectacular aircraft of this type available for charter, we can deliver various configurations to suit your needs. We also operate three beautiful Bombardier Global 5000/6000 aircraft – the leading private jet in its class – for your smaller groups and specific missions.

## Our FBO

An FBO experience for people – and from people – we believe that whether you're traveling private, business class, or first class, you deserve to have a luxurious experience from start to finish.

# Boeing Business Jets

BOEING BUSINESS JET

# A6 RJA

RoyalJet's latest acquisition – a Boeing Business Jet – was acquired by the company in early 2022 and is now ready for charter after undergoing upgrades and technology enhancements in Basel, Switzerland over the past few months.

This BBJ boasts 19 passenger VVIP interior with a forward crew rest area, master bedroom with private lavatory and shower, and a mid-cabin open-plan lounge. It has been finished with custom-made materials and state-of-the-art design configuration for best functionality and maximum comfort. The cabin can also sleep up to 12 in VVIP lie-flat seats and its queen-sized bed.

The aircraft was upgraded with special soundproofing to reduce in-flight noise levels, along with a low cabin altitude modification, special humidifiers, and a HEPA filtration system. All designed to optimize the health and comfort of our VIPs, meaning passengers will be more relaxed and fresher upon reaching their destination.

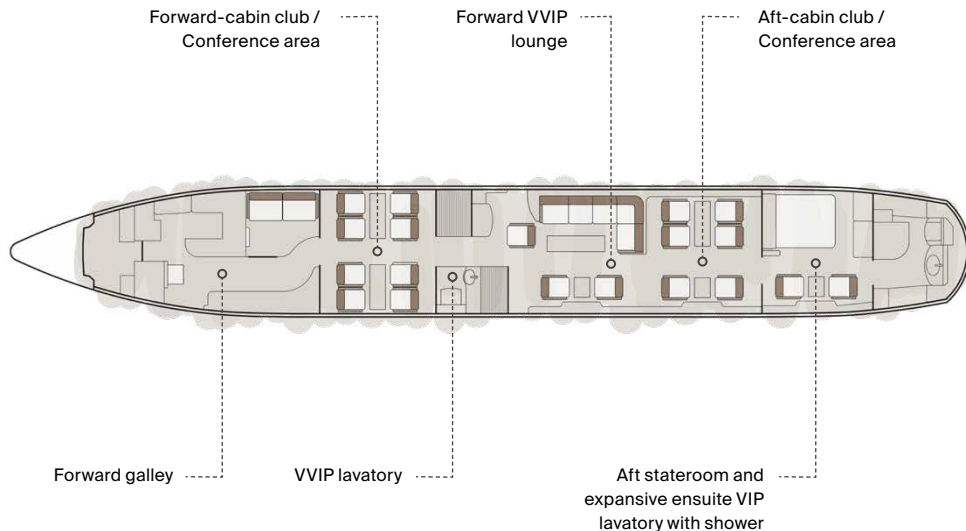

To further enhance the on board experience this aircraft is fitted with the latest technology and the best connectivity available in the market. This includes the very latest lighting, cabin management, and in-flight entertainment systems, complemented by a high-quality sound system including overhead speakers and subwoofers.

This aircraft is the longest-range BBJ in RoyalJet fleet, with auxiliary fuel tanks giving it the capability to fly non-stop for more than 12 hours and reach almost any destination globally with only one short fuel stop.

BOEING BUSINESS JET

# A6 RJU

This aircraft is one of the newest in our fleet, having joined us fresh from the factory in 2017, and offers a forward stateroom with ensuite VIP lavatory, forward and aft galleys, a mid-cabin club / conference area, aft business class, and standard class seating.

The contemporary design of this aircraft features carbon fiber and premium materials throughout the cabin, along with a unique cool mood lighting system with over a million color variations, which is controlled by the customer operated iPad-based cabin management system.

This aircraft also boasts a state-of-the-art video-on-demand IFE System, enhanced by our high-quality sound system with overhead speakers and subwoofers, which can be controlled by the RoyalJet provided iPads or via the customer's own device. To maximize the value of this system for our guests, the aircraft has also been equipped with the highest speed communications system (Ka-Band WiFi) available globally. This system allows passengers to stream high definition video content throughout the flight, including via their own personal account with providers such as Apple TV, Netflix, and Amazon Prime Video.

A low cabin altitude modification and HEPA filtration are also featured, which optimize health and comfort, leaving passengers more relaxed and fresher upon reaching their destination.

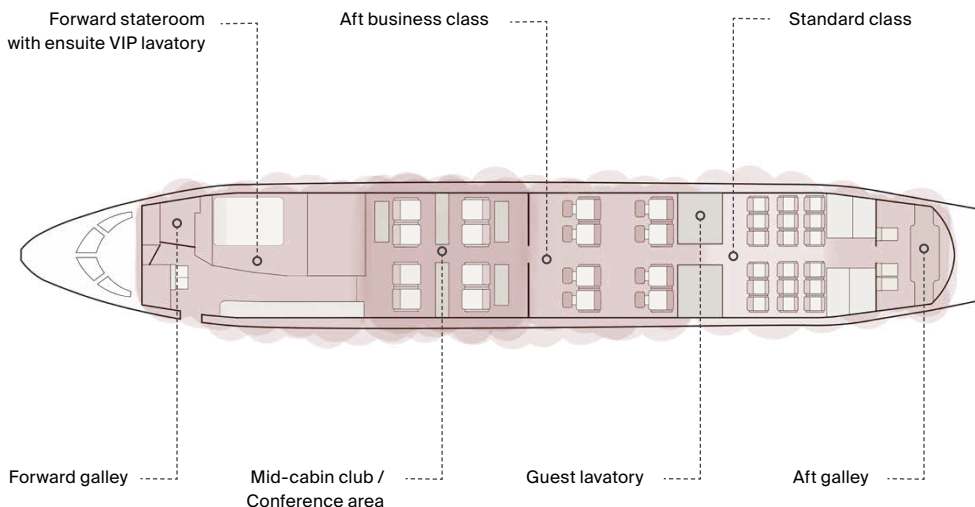

The cabin configuration offers 34 seats via the mid cabin club eight arrangement, the eight mid/aft business class seats and the 18 aft standard class seats. For overnight or at any time of the flight, this aircraft features a queen-sized bed and 16 lie-flat seats.

BOEING BUSINESS JET

# A6 DAS

This freshly refurbished and spectacular aircraft offers a VVIP interior which includes a forward stateroom with ensuite VIP lavatory, forward and aft galleys, club / conference seating and a VIP lounge (majlis) mid-cabin, aft business class, and standard class seating.

A comprehensive interior refurbishment was just completed on A6 DAS in 2021, utilizing state of the art materials and a design that reflects the culture and identity of Abu Dhabi and the UAE. This brand-new interior represents the launch of the RoyalJet customer experience transformation and features the very latest lighting, cabin management and in-flight entertainment systems which are complimented by a high-quality sound system including overhead speakers and subwoofers.

The aircraft has also been equipped with the highest speed communications system (Ka-Band WiFi) available globally, which allows passengers to stream high definition video content throughout the flight, including via their own personal accounts with providers such as Apple TV, Netflix and Amazon Prime Video.

A cabin humidifier system and HEPA filtration are also featured, which optimize health and comfort, leaving passengers more relaxed and fresher upon reaching their destination.

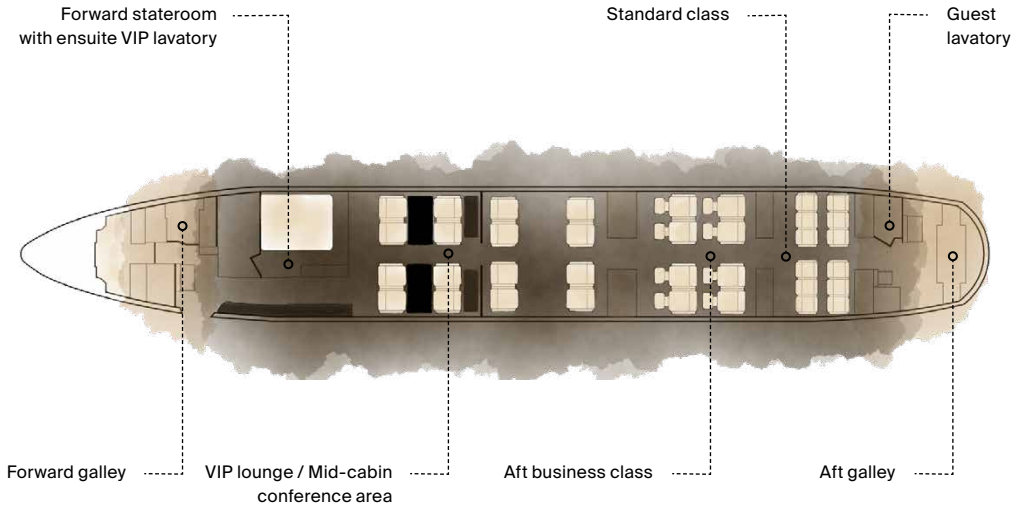

The cabin configuration offers flexibility between lower density (36 pax) or higher density (46 pax) depending on the client's preference and mission profile, and the aircraft is also capable of being converted into Medevac configuration via the installation of up to three ICU modules.

For a restful and comfortable trip overnight or at any time of the flight, this aircraft offers a queen-sized bed, 4 lie-flat seats, and from 8 to 16 seats reclinable up to 140°.

BOEING BUSINESS JET

# A6 AIN

This beautiful recently upgraded aircraft offers a VVIP interior which includes a forward stateroom and ensuite VIP lavatory, forward and aft galleys, club/conference seating and a VIP lounge (majlis) mid-cabin, and aft business class and standard class seating.

A full interior refurbishment was done on this aircraft in 2014 using premium materials such as Ostrich skin and high gloss wood veneer. It also features a state-of-the-art iPad-controlled IFE System, a high-quality sound system which includes overhead speakers and subwoofers, and HEPA filtration which optimize passenger health and comfort.

In late 2020, further interior touch-ups were completed and communications were upgraded to the latest and highest speed system (Ka-Band WiFi) available globally. This system allows for streaming of high definition video content, including via passengers' own accounts with providers such as Apple TV, Netflix, and Amazon Prime Video.

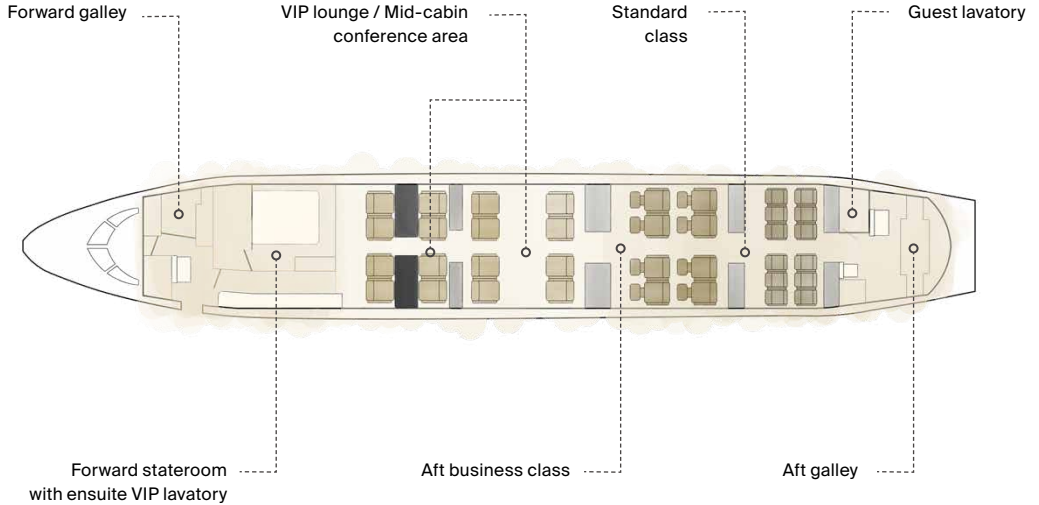

The cabin configuration offers flexibility between lower density (36 pax), or higher density (46 pax) depending on the client's preference and mission profile, and the aircraft is also capable of being converted into Medevac configuration via the installation of up to three ICU modules.

For a restful and comfortable trip overnight or at any time of the flight, this aircraft offers a queen-sized bed, 4 lie-flat seats and up to 24 seats reclinable to 140°.

BOEING BUSINESS JET

# A6 RJX

This beautiful aircraft offers a forward VVIP lounge (majlis), forward and aft galleys, business class seating mid-cabin, and an aft stateroom with ensuite VIP lavatory.

The interior of this aircraft was refurbished in 2007 utilizing premium materials including high quality leather and dark wood laminates. It is one of our longest-range aircraft and therefore includes a forward crew rest area for longer missions. The aircraft also features a CMS controlled lighting system, a broadcast IFE System and a high-quality sound system including overhead speakers and subwoofers.

HEPA filtration is also featured, which optimizes health and comfort, leaving passengers more relaxed and fresh upon reaching their destination.

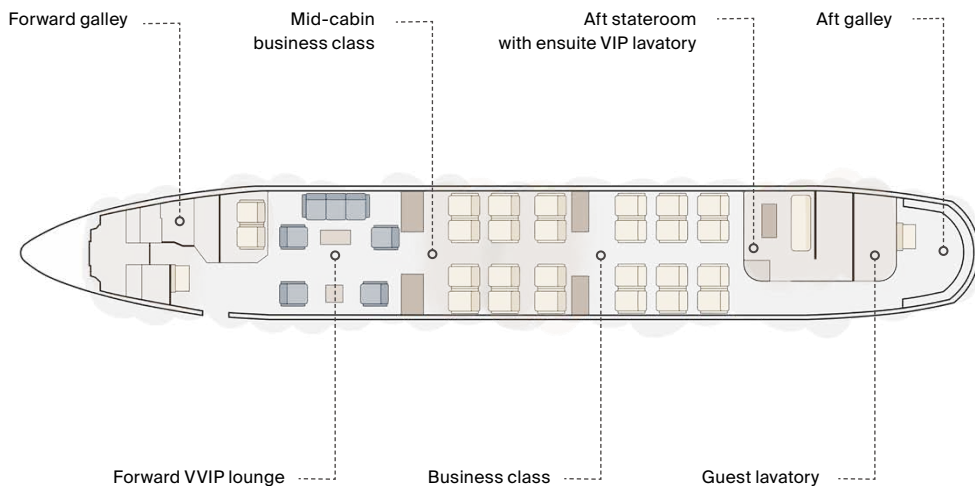

The cabin configuration offers 30 passenger seats, including 6 seats in the VVIP lounge and 24 identical business class seats mid-cabin. The bedroom can also be converted into an office or entertainment lounge, with the bed converting into a divan with in-flight seating for two.

For a restful and comfortable trip overnight or at any time of the flight, this aircraft offers a queen-sized bed, a small single sleeper divan, 4 lie-flat seats and 24 seats reclinable up to 145°.

# VP BRT

This beautiful recently upgraded aircraft offers a large forward VVIP lounge (majlis), a forward galley and crew rest area, a mid-cabin conference/dining group and a VVIP lavatory with shower, a spacious aft private office and a beautiful aft stateroom and an expansive ensuite VIP lavatory with shower.

The interior of this aircraft was refurbished in 2021 utilizing premium materials and features high-quality leather and spectacular wood laminates. At the same time, the aircraft received upgraded soundproofing to reduce in-flight noise levels, a low cabin altitude modification and humidifiers to reduce passenger fatigue on long flights, and upgrades to various other interior elements.

This is the first BBJ, and possibly the first private aircraft globally to offer the highest levels of on-board air quality achieved by the new Needle Point Bi-Polar Ionisation System provided by Aviation Clean Air.

It also features the fastest on-board internet speed available on the market using the Ka-Band Antenna System provided by Honeywell – a modern satellite system that allows the watching of movies, holding video conferences and making high-speed calls, all simultaneously. This system helps customers make the most of the adjustable lighting, the broadcast IFE System and the high-quality sound system with overhead speakers and subwoofers.

The aircraft's Scimitar Winglet technology improves the overall aerodynamic efficiency, which is pivotal in reducing carbon emissions, improving fuel efficiency and lowering operating costs. This results in significant savings on fuel and enables the aircraft to fly to more destinations non-stop by extending the flight range.

The cabin configuration offers 18 passenger seats in the lounge, at the conference grouping and in the office, including 10 single VVIP seats and 8 seats on the various divans. The three crew rest seats can also be utilized during flight, and the office can be converted into a second bedroom.

For a restful and comfortable trip overnight or at any time of the flight, this aircraft offers a queen-sized bed, a full-sized bed, 2 single sleeper divans, and 5 lie-flat or 9 deep recline VVIP seats.

BOMBARDIER GLOBAL

# A6 RJC

These beautiful aircraft are two of the youngest in our fleet, having joined us fresh from the factory in 2015. Their interiors are classically designed, with a forward galley, a forward club four grouping, a mid-cabin conference arrangement and an aft VVIP lounge (majlis) with a VIP lavatory.

The interiors of these aircraft were developed utilizing premium materials such as high end leathers and beautiful wood veneers. They also incorporate state-of-the-art systems, including Swift Broadband WiFi, an iPad-controlled IFE System, mood lighting, and a high-quality sound system with overhead speakers and subwoofers.

These aircraft feature some of the lowest cabin altitudes in the industry, along with HEPA filters, which optimize health and comfort, leaving passengers more relaxed and fresh upon reaching their destination.

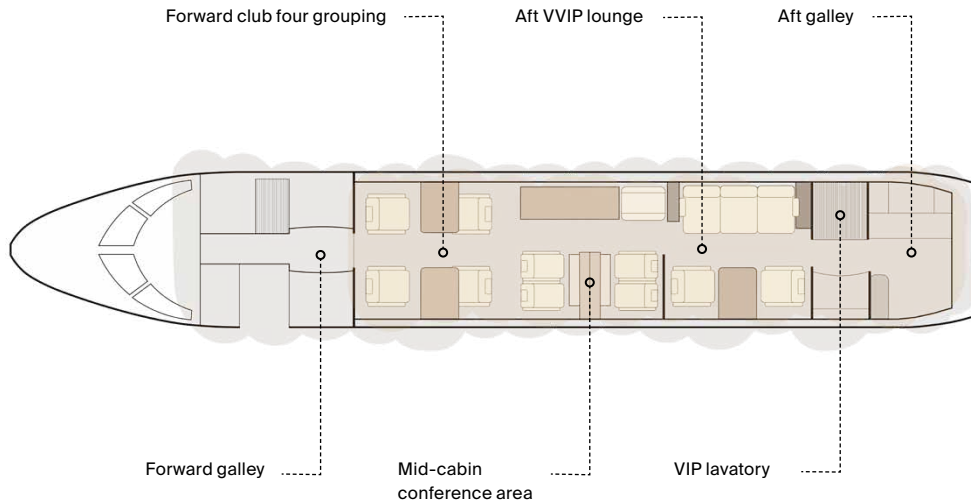

The cabin configuration offers 13 passenger seats, via the forward club four, mid cabin conference four and the aft 3 place divan across from the club two.

For overnight or for rest at any time of the flight, this aircraft offers a single sleeper divan, 4 VIP seats which recline up to 140°, and 6 seats with 110° recline.

# Medical Evacuation

# The pioneer of aeromedical evacuation in the Middle East

Alongside our success in premium private aviation, RoyalJet has also become the leading aeromedical evacuation service in the Middle East.

Whether you're arranging support for an individual patient, or an urgent mass evacuation, we can dispatch a fully equipped aircraft within two to three hours of your call, staffed by a highly trained medical team. Our doctors and nurses specialize in critical and emergency care, including neonatal, pediatric and cardiac treatment. Each aircraft is equipped with the most advanced medical technology, including neonatal ventilators and defibrillators and a wide range of mobile critical care equipment.
